Bring your own container, of any brand, and this will be refilled in the shop.

This means you don't need to buy a new plastic bottle each time, thus reducing plastic production and plastic waste!

Added Ingredients also sells food products which can be put straight into your own clean containers: for example loose leaf tea, coffee, sun-dried tomatoes, and a range of extra virgin olive oils. Cheese and charcuterie can be wrapped plastic-free on request.

SESI is a social enterprise which supplies organic, fair-trade and local food and sustainable, locally made detergents in people's own containers.
